---

## OTHER EXPERIENCES

### Travel Photographer

**Mar 2018 - Present**

- Traveled through 7 countries in Asia and launched my own photography/videography business featuring travel/adventure content
- Worked with international tourism boards to bring attention to lesser frequented parts of their country
- Partnered with brands to create marketing content
- Provided social media exposure for brands/tourism boards

---

## EXPERIENCE

### Software Engineer, DATA TOOLS

**Workday**

**Aug 2014 - Jan 2018**

- Backend software engineer in the Workday Internal Data Tools development team responsible for building and enhancing application development frameworks
- Lead engineer on redesigning, developing, and managing a cross-functional Java framework responsible for ingesting external data (CSV, MySQL DB, and REST endpoints) into the Workday system
- Proactively aided teams in up-taking the framework. Implemented search, internal caching, and a Junit testing framework
- Developed a data quality monitoring framework that scans through petabytes of data to detect inconsistencies
- Improved the time in which developers receive analytics on the health of their data from days to minutes.
- Built a data pipeline to ingest log data from Hive servers back into an analytics environment for better insights

### Software Development Intern

**Informatica**

**Summer 2013**

- Extended an existing Test Suite to test the development of third party adapters for Informatica's cloud product
- Ensure proper interface-level implementation.

### Software Engineer, Part-Time

**Tapestry Solutions, Inc.**

**Apr 2013 - June 2013**

- Responsible for maintenance, bug fixing, general development, and improvements for Adobe Flex/ActionScript client-side web applications and Java server applications

---
